

The background features a repeating pattern of ancient Greek architectural elements. At the top, there is a frieze with a sequence of circular medallions containing stylized floral or fruit motifs, separated by vertical bars. Below this is a wide, light-colored band. Underneath that is another frieze with circular medallions, each containing a central red or blue circle surrounded by concentric rings. The bottom section consists of a series of small, rectangular blocks arranged in a row, resembling a base or a lower frieze.
